Few things can bring on the urge for a new hair cut or colour than the advent of a new season. A change in temperature — and, subsequently, our wardrobes — can drive an overwhelming desire to have a dramatic chop, a fresh hue or even a change in styling technique.

With spring/summer 2019 gone, autumn/winter 2019 will usher in a new approach to your tresses that prioritises your natural texture and de-prioritises regular appointments, high-maintenance routines and conformity.

Here, we ask some of Australia's best hairdressers to name their picks for the hair cut and style trends that will dominate the Autumn/Winter 2019 season.

Chop chop!

THE BLOW DRY

Alexander Fuchs, Co-Owner, Fuchs Hair: "The blow-dry is back, after years of beach waves with hot tools I'm seeing more and more women wanting a great blow-dry again which lasts up to a week. Bouncy, loose waves created by a ceramic round brush is my go to! Add precious UV Filter and protect the hair with La Biosthetique Soleil Vitalite Express leave in spray."

ANDROGYNOUS CROPS

Barney Martin, Owner, Barney Martin Salon: "Androgynous crops really make a statement. Think Edie Campbell and Adut Akech. It's bold and beautiful."

DIRTY BLONDES WITH SHADOWY ROOTS

Barney Martin, Owner, Barney Martin Salon: "Following on from the low maintenance colour trend, going darker at the root than at the mid-lengths and ends is a great way to move on from sun bleached, summer hair. Not to be confused with obvious regrowth, this look is still chic not cheap."

SIDE PARTS

Barney Martin, Owner, Barney Martin Salon: "Soft, side-swept parts give a laid-back, boho feel whilst sleek and straight are sharp-looking, like you mean business."

MATCHING YOUR HAIR TO YOUR CLOTHING

Barney Martin, Owner, Barney Martin Salon: "Another trend from European Fashion weeks, matching your hair colour and clothes will be another strong look in 2019, with coral pink standing out. A variation of pink can work with any eye colour and skin tone and, as it fades out, gives a beautiful variety of tones."

THE BOB

Barney Martin, Owner, Barney Martin Salon: "There is still a huge nod to embracing your hair's natural texture with the bob continuing to reign through autumn/winter. Whether it's blunt cut or textured, your stylist will cut to work with your natural wave or curl. If your hair is poker straight, opt for a sharper cut and go with what your hair responds best to."

THE CURTAIN FRINGE

Paloma Garcia, Director, Paloma Salon: "Think centre part and one-to-two-month growth from a full fringe. The fringe is cut textured and loose with a 70s feel."

WASH 'N' WEAR HAIR

Paloma Garcia, Director, Paloma Salon: "You comb your hair in the shower whilst your conditioner is in ... that's all you do! Hair is slightly wavy, cut is loose and natural. Colour is slightly sunkissed. This look is relaxed and carefree."

THE NINETIES SQUARE BOB

Paloma Garcia, Director, Paloma Salon: "It's mid-neck, one length, sharp and precision

in the way it's cut. Your hair colour is one solid colour. You wear it straight and shiny. It's a bold and head turning look!"

SUPER GLOSS HAIR

Alexander Fuchs, Co-Owner, Fuchs Hair: "Following months of harsh summer sun, super glossy hair will be back! Who doesn't love hydrated hair with a light reflective shimmer through it? Perfectly suitable for warm rich chocolate browns or caramel toned blondes! I recommend ammonia-free, semi-permanent colours rich in natural oils recommend by your hairdresser. My favourite for sure is the brand new Color&Gloss by La Biosthetique."

HAIR ACCESSORIES

Alexander Fuchs, Co-Owner, Fuchs Hair: "Oversized fancy hair clips & pins are the rage at the moment and something we are seeing all over the red carpets. Hair accessories glamourise any 'do' instantly and make a statement."
